

FARMERS OF PINE LAKE PROSPEROUS

All Are Progressive, Own Good Homes and Some Choice Live Stock

Between fifteen and twenty people, the little school house full, out in the Pine Lake community met Sunday afternoon to listen to County Representative Luther talk upon agriculture. Here as elsewhere the people were clean, well kept and prosperous looking. They will average with people in the older sections of the state in intelligence and probably surpass them in progressiveness. The same story of desire to learn is found everywhere throughout the county. In the Pine Lake community they will grow some Wisconsin No. 8 corn this summer. Alfalfa will also be started pretty generally. One farmer finds that it has started all right from a little patch which he sowed in his garden last summer. The tubercles were on the roots all right. One splendid silo made of concrete blocks furnishes splendid silage to a big bunch of cattle. On this farm ninety tons of silage were cut from six acres. It is hard to beat that anywhere. The farms are stumped and fenced. Some good Poland-China hogs were seen. Some cattle with Guernsey and Holstein blood are to be found. The houses and barns of this community are painted and the whole community looks good. Farming can surely be done in Oneida county. If one community can do it another can and this is being demonstrated all over the county.

Several men and some of the women of the Pine Lake community will be at the Farmers' Course this week every day. A last week's visitor from Forest county is going to come over to the course and is going to try to bring along a number of the people of his county with him. From all directions comes the cheering news that people are intending to come to the course. Besides being able to listen to the best that can be heard along farming lines the people should not forget that this course of three days is going to furnish the best opportunity to become acquainted that has thus far been presented in Oneida county. The people should not forget that right now is presented the opportunity to get together to improve farming conditions in Oneida county and to advance the value of the farms in this county. A good lift all together right now will mean much.

There will be two evening meetings. On Thursday evening Professor K. L. Hatch, Secretary of the Extension Service of the College of Agriculture, will speak in the City Hall upon the subject "The Present and Future of Oneida County." Professor Hatch is a vigorous, wide awake and progressive man and will make a good speech and the people should hear it. On Friday evening two of the young ladies in the training school will speak and Prof. Dresden, Principal of the Training school, will speak upon the subject "The Training of Rural Teachers" and County Representative Luther will speak upon the subject "Milk."

The business and professional men of the city and the women too ought to be interested in this course. Agriculture is becoming a lively topic in this county. Now is the time to connect up with what is going on. The people of the city are cordially invited to attend any and all meetings of this course. Meetings will be held on Thursday, Friday and Saturday beginning in the day time at 10 and 2 o'clock and in the evening at about 7:30 so that those who attend from the county may not be kept out too late. On Saturday some of the pure-bred and grade cattle will be on exhibition.

An attractive Agency proposition is open to the right party for the sale of "LION" Cars for Oneida county. For full particulars and catalogue, Address, Lion Motor Sales Co., Cranston, Wis.

KRAMER TO MEET SMITH

Strong Boxing Card Is Arranged For Friday April 5

Another big boxing show has been arranged for this city at the Grand Opera House, Friday evening, April 5. The main number on the card will be a ten round bout between Fighting Dick Kramer of this city and Burrell Smith, the colored glove conductor of Duluth. The boys will weigh in at 152 pounds ringside and the contest will be clean breaks. This will without doubt be one of the best glove battles witnessed in Rhinelander since the game again became popular here. Kramer and Smith appeared in the ring in this city several weeks ago, their match resulting in a draw.

Both contestants in the coming bout are training hard for the meeting and will be in prime condition when they take their respective corners on the night of the go. Kramer is working out at the Brunswick and Smith is training at White's. Claude Shepard is promoting the exhibition.

Two lively preliminaries will be pulled off the same evening. Young King of this city and Paddy Fitzgibbon of Menominee, Mich., lightweights, will box six rounds. Both lads are clever, King having been in on several previous shows here. Fitzgibbon has quite a "rep" in Michigan.

Nap Bruly and Kid McGuire, the two little bantams, will again be seen in a four round mix. General admission \$1.00, ringside \$1.50.

ELKS PLAN BIG MINSTREL SHOW

Lodge To Give Home Talent Entertainment Here Soon After Easter

Shortly after Easter a minstrel show composed entirely of local talent will be put on at the Grand Opera House, this city, under the auspices of Rhinelander Lodge 558, B. P. O. Elks. For some time past the Elks have been considering producing such an entertainment, but it was not until Sunday afternoon that active steps were taken toward realizing that end. At a meeting of the members of the lodge held at the club rooms on Davenport street it was decided to give the show on some night during the week following Easter, the exact date having not been settled upon.

Last night a second meeting of the members was called at which arrangements for the entertainment were completed. Those who will participate were assigned their places and rehearsals will begin at once.

All the best talent in the city has been secured for the minstrel show and there is an all star array of burnt cork artists, sweet singers, musicians and specialty performers. An elaborate first part will be staged. All the latest song hits, jokes and funny sayings of the day will be introduced. Old timers who took part in home talent minstrel here years ago will again be seen and heard, including Lytle and Bellel, the "long and short" twins. William Herwood is the director.

On the day of the show it has been planned to parade through the principal streets of the city. This feature alone will be "worth going miles to see," as the press agent says. Wait, watch, look and listen for the Elks' minstrels.

FORMER CONDUCTOR DEAD

Word was received in this city today announcing the death of Edward Jackson, a former popular Soo line conductor, in Saskatchewan, Can., March 25. Mr. Jackson had many friends in this city and along the Soo railroad. He was a nephew of Frank Venor, proprietor of the Fuller buffet.

Rev. DeJung held church services in the school house at Monico, Sunday.

ENCAMPMENT TO LAST TWO WEEKS

Co. L Will Have Unusually Long Stay At Camp Douglas This Year

The Second Regiment, Wisconsin National Guard, of which Company L of this city is a member, will remain two weeks at Camp Douglas on the annual encampment this year according to advice received by the officers of the company here. In addition to the regular routine of drill work at camp this year the regiment will make a practice march from Camp Douglas to Sparta, where the regular United States army maneuvers will be in progress, a distance of twenty-four miles. The boys of Company L are looking forward to this part of the encampment with anticipations of delight.

On account of the number of members of the company who are at school or at work outside the city an attempt is being made to recruit to the full number. This is the right time for recruits to enter the ranks and young men are urged to send in their applications.

The anti-typhoid vaccine for the company has arrived and will be used for the first time in this city next Sunday afternoon. About twenty guardsmen will be vaccinated by the company physician, Dr. H. Garner, who will probably be assisted by Dr. J. T. Elliott. The inoculation will be made on the arm and by performing this work in the afternoon the effects of the vaccination will be over before morning.

Work was started Monday on the new rifle range in the swamp east of the city when Co. Surveyor D. H. Vaughan surveyed out the ground.

SMITH SERIOUSLY ILL

He Is Suffering From White Plague At The Hospital

Fred Smith, who at the March term of circuit court was tried for the murder of his infant child resulting in a disagreement of the jury, is now a patient at St. Mary's hospital. Physicians who have investigated Smith's case find that he is afflicted with tuberculosis. He was permitted by the court to leave the county jail without bond for a period of six months. Smith's present condition is deemed critical by the doctors and close confinement would prove very detrimental to him. Through the New North Smith wishes to thank all those who have shown him sympathy and kindness during his trouble. He feels grateful to Sheriff Crofoot, Under-sheriff Assumundson and others connected with the jail for the excellent treatment accorded him while confined there.

LATER

The case against Fred Smith, charged with murder, was thrown out of court yesterday by Judge Reil on account of the ill health of the defendant.

ONCE LIVED AT MINOQUA

Information Received Regarding Wahpeton Outlaw

According to information received from Minocqua residents, Bert Hudson, alias John Walderman, the desperado who was killed at Wahpeton, N. D., once lived at that village. His father and brother, Percy Hudson, moved from there several years ago and now make their home at Seattle, Wash., where Percy is employed on the street railway system.

The letter bearing these facts was received Saturday by Chief of Police Straub by Mr. Sutton of Minocqua who is acquainted with the Hudson family.

Chief Straub at once communicated with the officers at Wahpeton acquainting them of the facts. It is also learned that a Bert Hudson once lived at Ogema, Price county, and Barron, Wis. He is believed to be the same man who later resided at Minocqua.

CHINESE PIRATES KILL BERT HICKS

Relative Of Richard Reed Of This City Meets Tragic Fate In Orient

Bert R. Hicks, the young Oshkosh engineer who was murdered by Chinese pirates near Wu-Shan, province of Sze-Chuen, China, March 23, was a relative of Richard Reed, assistant postmaster in this city. Mr. Reed was exceptionally fond of the young man and the shocking news of his tragic death has caused him deep grief. Mr. Reed was at the Hicks home in Oshkosh when Bert Hicks departed for the Orient and he says that the young man was filled with enthusiasm over the brilliant prospects which the future seemed to hold for him.

Accounts of Mr. Hicks' death and that of the wounding of his two companions, Philip Hoffman of Ohio, and A. N. Sheldon of California, by pirates appeared in the daily papers and have been generally read. A late dispatch from the American legation states that Hoffman and Sheldon are recovering.

The three Americans were on an exploring trip on the Yangtze river and were asleep in their boat when seven pirates armed with swords attacked them at an early hour in the morning. They were robbed and wounded, Mr. Hicks receiving fatal injuries.

Emmet R. Hicks, father of the murdered boy, was at one time attorney general of Wisconsin and is now head of the Fraternal Reserve Association, an insurance organization with headquarters in Oshkosh. The family is one of the best known in the state.

Mr. Reed states that another son is at present very ill and his recovery is not anticipated.

OPENS MILLINERY STORE

Mrs. N. Hamilton has engaged in the millinery business in the building on Davenport street recently occupied as a barber shop. She has a large and up-to-date stock of new hats and invites the ladies of Rhinelander to call. Announcement of her opening is made in this issue.

DEATH FROM WHITE PLAGUE

Antone Kakol, aged twenty-eight years, died Wednesday morning at St. Mary's hospital after an illness with tuberculosis which extended throughout the winter. Deceased was a resident of the west side and is survived by many relatives.

The funeral will be conducted Friday morning from St. Joseph's church.

HIGH SCORES BY BOWLERS OF CITY

Over Fifty Dollars Given In Prizes At The First Tournament Here

Such a splendid success was the city bowling tournament held last week at the Anderson alleys that the participants have urged Manager Thomas Lawrence of the alleys to hold another tournament. This he decided to do the last week in April. In the first tournament which came to a close Thursday there were sixty-eight entries. This figure plainly indicates marked interest and enthusiasm shown in the event by the bowlers of Rhinelander.

ART NEEDLE WORK STORE

Mrs. A. W. Crusee is making plans to open an art department in the Quinlin Millinery store on Stevens street, where a complete line of supplies will be carried. The department will be under Mrs. Crusee's personal supervision and all the newest designs and patterns will be shown. Mrs. Crusee needs no introduction to the public as her former experience in needle work and her talent in that line make her especially fitted to conduct such a department and this city is fortunate in having such a store with so competent a head.

She will be ready for business in a few days when her stock arrives.

OUT OF BUSINESS

Crusee's Dept. Store Closes Doors After A Long Career

Crusee's department store, one of the oldest established concerns in the city, has closed its doors and gone out of business after a long and honorable career. The balance of the goods on hand after five months stock reducing, were sold in a lump last week to a local dealer. The store will be missed by the trading public as it has been a favorite shopping place for years, the extent of its trade reaching far and near and catering to an unusually large circle of satisfied customers whose constant loyalty was assured by the store's unvarying policy of square and courteous dealing and honest values.

A. W. Crusee, the proprietor and manager of the store, informs the New North that, while his future plans are not as yet fully developed, he expects to remain in Rhinelander and engage in lines of activity less strenuous than department store business under present conditions.

JAN KUBELIK AT ANTIGO, APRIL 9

World Famous Violinist Is Coming To Our Sister City For One Concert

Jan Kubelik, the world renowned violinist who is now making a farewell tour of America, will appear in concert at Antigo, Tuesday evening, April 9. It is rarely that an artist of Kubelik's greatness comes to a city the size of Antigo and his engagement there will be the biggest musical event in northern Wisconsin this year.

Kubelik's first American tour was made in 1909-1, and he has since made two others, all meeting with the most tremendous success; in fact, no other artist in recent years can claim such an unbroken chain of artistic triumphs and financial successes as this wonderful Wizard of the Violin.

His engagements during the present Spring Season, 1911, in Paris and London have shown that he still retains his remarkable hold on the public of these great cities, the largest auditoriums in all cases having been crowded to the doors, while the press unanimously expressed the greatest delight and surprise at the development in his art, and, in addition, saying "there was a depth of feeling, heart interest and temperament displayed which only time and experience could give to an already wonderfully endowed Artist."

ANNUAL EASTER BALL

Elaborate Party Is Planned By Company L April 8

Company L of this city will give its fourteenth annual ball at the Armory Monday night, April 8. As is well known the Easter dances given by the company in the past have been big successes but the one this year promises to outclass them all. The committees in charge will look after every detail of arrangement and it will be the aim to make the party the greatest social event of the year. The Armory will be decorated in attractive style and the floor will be in perfect condition. Music will be furnished by the Military orchestra.

The committee on arrangements is as follows:

First Lieut. Himes, First Serg. J. Bouffion, Q. M. Serg. C. J. Wesley, Serg. J. M. Reynolds, Corporal Rudie J. Mueller, Private Jas. Irick, Private Ray Slossen.

EVENTS OF WEEK IN OTHER TOWNS

Items Of More Or Less Importance Boiled Down From Neighboring Exchanges

Crandon—
Two large potato warehouses will be erected in this city during the summer of 1912. Large quantities of potatoes are raised by the farmers of this vicinity every year and in quality they surpass any other potatoes raised in the state. For this city the wholesalers are anxious to buy the crop.

Ladysmith—
The Chippewa Valley Telephone company is going to practically rebuild the Ladysmith system and about \$5000 will be expended for that purpose. Manager Allen has received blue prints of the new work, which will be started this week. It will not only improve the service but also the appearance of the city. Several thousand feet of cable will be put in the air, thus doing away with the aerial wires now on poles.

Medford—
Harold Krotzenwetter, one of the hands employed in the plant of the Wausau Sulphate Fibre Co., narrowly escaped death when his clothing caught in one of the shafts on the big paper machine. Only for the close proximity of the machine tenders and the presence of mind of Ed. Bougard, death would certainly have ensued. While engaged in his duties as helper his shirt sleeves became caught in the shaft and he was rapidly drawn around the same. Mr. Bougard grabbed him around the body and succeeded in holding him from being pounded or crushed until the power was turned off.

Ashland—
The police and fire commission has dismissed the charges against Chief of Police Blaire alleging his unfitness for office. Attorney Haagen appeared for the complainants against the chief and declined to submit any evidence on the ground that the commission was at present illegally constituted and what

ever action it took in the case would be void. His contention is that the state law provides that the police and fire commission be made up of members of two leading political parties and that the Ashland board is composed entirely of Republicans.

Stevens Point—
Investigation of a foul odor, which for a number of weeks had prevailed in the vicinity of an unused closet in the Soo line depot led to the discovery of the body of an infant. The remains which were those of a newly born child were in a bad state of decomposition. The body was wrapped in a copy of a Milwaukee newspaper dated December 2, 1911. How, when, why and by whom the body was placed there will perhaps forever remain a mystery.

Iron River—
Although over ninety years of age, John LaChappelle, Sr., declares that he feels as young and vigorous as ever and has made plans to farm on a larger scale than usual this year. As a proof of his intentions he purchased 80 bushels of seed wheat and invited his friends to come out to his place and see a good wheat field next summer. Mr. LaChappelle is a remarkable example of a young old man. His eye is as clear, his nerves as steady and his face as genial as a man one-half his years.

Escanaba—
One of the most unusual murder cases in the criminal annals of Michigan, which has gained a state-wide notoriety, is to be tried at the April term of the circuit court at Escanaba. The defendant, Arthur Lindquist, a poor and apparently

C. D. of Und. 1/2 of Lot 5 who after a psychological study of the character and temperament of the Lindquist, has decided that he did not kill Alvira Fogarty last fall, whose body was found in the bay some weeks later.

Ironwood—
William Anderson, a Finlander living at Jessville, was accidentally killed in a peculiar manner. Anderson had sold a load of hay to a party living at Jessville and on Monday came into the city with the hay and had it weighed on the city scales. On his way back to Jessville the load tipped over and he was thrown off. His back was broken and he died Wednesday. Anderson was forty-five years old and leaves a widow and four children.

Medford—
Congressmen Morse and Lenroot have introduced bills before the house asking for an appropriation of \$75,000 with which to build a new government building in this city. The official bills is uncertain, and it may be that no money available for that purpose will be passed by congress this session, but they will exert every means to get this appropriation.

Medford—
Mr. and Mrs. A. Jarvis and three children nearly escaped asphyxiation by gas Friday morning when their home became filled with coal gas from a heating stove. The parents were found unconscious on the floor by neighbors who broke into the house through a window. It required an hour's work by physicians to revive the children who were sleeping in an adjoining room.

ARE YOUR KIDNEYS WELL?

Many Rhinelander People Know the Importance of Healthy Kidneys. The kidneys filter the blood. They work night and day. Well kidneys remove impurities. Sick kidneys allow impurities to multiply. BUNNY COMES TO TOWN

A wild rabbit fell through the grating over the basement window of the Hinman drug store some time Friday night and was easily captured the following morning by William Secard, the prescription clerk. The little animal was in plump condition and only Billy's humane nature prevented him from converting Bunny into a pot pie.

WELL KNOWN MINISTER

Restored to Health by Vinol

Rev. D. Schneider, who is a well known minister in Rice Lake, Wis., writes:

"I had a very severe stomach trouble last year from which I was kept in bed three months. I had engaged the services of a doctor, but to no avail. I then read of Vinol and determined to try a bottle. Before it was used up I was out of bed, and four bottles made me a well man. Vinol is a splendid medicine, and I can gladly recommend it."

Prominent men from all over the country do not hesitate to endorse this wonderful tonic.

For twelve years Vinol has been sold on the "money back" plan, and every year strengthens its popularity and proves by continued tests that it will do what we claim for it.

W. T. Stevens is candidate for the state senate. Vote for him at the election April 2. Give your own townsman a good rousing vote.

Charles Morrill is a candidate for supervisor in the fifth ward. Mr. Morrill is a good business man and ought to be a good supervisor.

Senator Stephenson wins seat by 40 to 34. The old gang in the U. S. Senate voted for him and the progressives against him. He must be proud of his support.

F. E. Parker who has made a good supervisor and an excellent chairman of the county board, did not care to continue in the office, consequently is not a candidate for reelection in the fifth ward, at this election.

Taft has been victor over Roosevelt for delegates in New York and Indiana. Roosevelt accuses President Taft of fraud and says if Mr. Taft wins by juggling figures then he will have something to say. Says he will not abide by juggling of figures by the bosses.

When Mayor Anderle was told that a stranger who visited here last week said Rhinelander has more modern improvements than any other city of its size in the state, his chest swelled with pride. Mr. Anderle has been mayor nine of the last eleven years while these improvements were going on and naturally feels entitled to his share of the credit.

We hope the members of the school board will be too broad to reject the proposition for an examination of our children by a trained nurse. Do not let prejudice enter into so important an issue. Be up to date and do as other wide awake cities are doing. Reduce the scattering of disease by an examination. Read carefully the article on this subject in other columns of this paper.

Arthur Taylor announces to the New North representative that he was nominated by a mass meeting that H. C. Braeger, who was defeated at that meeting and H. C. Braeger's friends of their own accord volunteered him their loyal support and he became a candidate because of those pledges, that he is in the race to stay until the polls close, in spite of Mr. Braeger's broken pledge.

Sam Perinier, one of the candidates for mayor, openly states that he believes women should be on the school board and if he were elected he would appoint some to act on that body. We wish to say the efficiency of our school board has greatly degenerated since women were dropped from the board.

Other candidates should be forced to state their position on this important question.

After ten years of struggle the beef packers are acquitted. The Taft administration have advertised much this prosecution but it has fallen flat. Within the last four days pork on foot has increased fifteen cents per hundred and certain forms of dressed pork four dollars per hundred. If you see anything in the Taft administration favorable to the masses, notify us so we may publish it. Of course this means the high-handed conduct of the meat packers will continue with increased fervor.

BRAEGER AND PAPER MILL TAXES

It has been denied that H. C. Braeger, as stock buyer of the Rhinelander Paper Co., ever appeared before the city equalizing board of taxation in behalf of reducing the paper mill's taxes. We wish to state that we have the evidence in this office that he has been.

When Carl Krueger was supervisor of assessments H. C. Braeger was a witness on behalf of the Rhinelander Paper Co. to get the Paper Co.'s taxes reduced. The Paper Co. now pays only about forty per cent on its true value as given in the evidence of its secretary. In what position must Mr. Braeger stand as mayor on this all important question?

WITHDRAWS CHARGES

The school board met Monday evening in the council room to hear the

complaint of Bennett Larson against Superintendent Harrison for brutally whipping his son but when the meeting was called to order it was announced that Mr. Larson had withdrawn the charges. Superintendent Harrison was permitted to state his side of the case and the board wholly exonerated him. It is like the majority of such cases, when analyzed, there is nothing to criticize the superintendent for. We do not blame or find fault with Mr. Larson because we feel he did not fully understand the situation. However, this should be a warning to all parents that in case children make complaints, most thorough investigation should be made before any action is taken.

JUST ANOTHER SCHEME

The paper mill bunch succeeded in taking the Soo Station away from the north side to an undesirable location, to the detriment of the north side property holders. Now they wish to control tax fixing of this city, so one of their higher employees is pushed out for the office of mayor. They know as well and better than the masses of voters that the election of H. C. Braeger means no city reforms over the other candidates but they do know Mr. Braeger's election means that he will control the board of review which regulates taxes so they want him elected mayor. They realize that the Soo station scheme worked, why not tell pretty stories to the voters and try another scheme to control city taxation.

HE SHOULD BE DEFEATED

It is not our desire to say anything personally derogatory to H. C. Braeger, candidate for mayor, but we all know his election must necessarily put him in an embarrassing position and do an injustice to the city. Could any man expect Mr. Braeger to raise the taxes of the paper mill whose stock holder he is and whose stock he has charge of? Is it possible, if he wishes, for him to be unbiased in this matter? Can he lock out of disinterested eyes from the position he holds? If not should he be chosen to this important office? It is said Mr. Braeger is a nice man. We are not going to say one word against his statement. But we do believe every vote for Mr. Braeger is a dam- age to himself. If he should be elected, he will stand between two fires, the wishes of the paper mill bunch, and his duty as a mayor, and more he will be looking at his double proposition from the eyes of a high paper, mill employee, common laborer. We believe his election will be a damage to himself and a blow to the freedom and justice of this city. In behalf of the little home owners and the middle classes, Mr. Braeger should be de- feated.

AN OPEN LETTER

To the Progressives of Wisconsin: The Progressive Republicans of North Dakota have set the pace and pointed the way out of the dilemma in which the Republican party has been placed by the system which attempts to manipulate it to serve Big Business.

The question to be determined by the next election is 'Shall the will of the people be the law of the land,' or shall the system rule the nation?

There is but one candidate for President whose position on this overshadowing question is positively known and clearly and unequivocally stated. Whenever the name of Robert M. La Follette is seen or heard it awakens a sense of patriotic devotion to principle and unbounded faith in the people. His doctrine of Representative Government, resulting in the greatest good to the greatest number, is not a recent discovery, opportunely promulgated to meet a popular clamor; it is the fundamental progressivism which others have seen fit to adopt theoretically, but which he alone, of the national leaders, has successfully embodied in practical and effective statutes.

Do not let the issues become clouded by misrepresentation. Go to the polls on April 2nd and vote for La Follette and La Follette delegates. The larger his majority the surer and earlier will there be an end to Batteringism, Limerism and pork barrel legislation.

L. B. NAGLER, Secretary, League of Progressive Republican Newspapers of Wisconsin.

Good Plan.

Write down a list of things you intend to do in spare time and do not let a week slip away; nor a day. If you can help it, without doing one of them. Each month will bring new interests which will be worth trying to take up.

Must Be Native Bred.

It has been found in Andalusia that on hard trips the only saddle horses surviving extreme hardship and lack of food are the Spanish; the imported horses all succumb.

EAST SEES BOB LOOM UP STRONG

Will Not Be Surprised If La Follette Gets More Votes Than Roosevelt

Washington, March 25. — Would any one be surprised if La Follette had more votes than Roosevelt in the national convention?

This may sound like a ludicrous idea, so thoroughly has the east become imbued with the notion that La Follette is out of the race. But the question has been asked 'in all seriousness here and not by Taft or La Follette men. The Wisconsin candidate has manifested unexpected staying powers. In the hotly "Progressive" states of the west he is more of a popular favorite than Roosevelt, and even where he does not win a state in the primaries there is no certainty that the Roosevelt men will not switch to him, even as they switched from him to Roosevelt when he went "down and out" from overwork and worry.

La Follette a Wonder. "La Follette is a wonder," a Roosevelt man admitted. "What other man on earth could collapse as he did, not only physically, but politically, and 'come back' so soon as he has? I think Roosevelt has reason to reckon with him even more than with Taft."

The La Follette men, of course, claim that Roosevelt will be third in the balloting, with La Follette second. That sort of claim is to be expected. The queer thing is that the men who do not belong to their camp are not sneering at the claim.

Campaign Sineas Appear Money has begun to appear in the La Follette camp, and that has been the one thing the boom has lacked hitherto. They have entered upon an active campaign in the president's own state. What they claim there are a matter of no importance, since no boomer has a conscience when it comes to claiming things, but what is of much more importance is the fact that persons not attached to or interested in their boom, concede that there is a very fair chance of their carrying eight districts in Ohio.

Good Chances in Primaries Not only that, but La Follette is not going to carry the fight before every direct primary that is to be held. Wisconsin, which holds her primaries on April 2, he is sure of. He is reported to have a good chance of doing something in Nebraska, which is to hold its primaries on April 17. Another direct primary state is Oregon, which holds hers on April 19. In Massachusetts (April 30) he would be foolish to try anything, and presumably he will not attempt anything with New Jersey (May 23); but he is likely to loom up strong in South Dakota on June 4.—Philadelphia Public Ledger.

A Misanthrope.

Miss French's High Hopes

Mrs. Smithers had spoken so tenderly and so often of her son John that Miss French felt that she, the flattered recipient of those precious confidences, might even be willing to accept the name of Smithers in exchange for hers, for such perfection and virtue would come with it.

Miss French was passing a few weeks at a health resort. There she had fallen into the company of Mrs. Smithers so much that she felt it was no coincidence when she found Mrs. Smithers seated in her favorite corner sewing or when she went for a walk to the springs and found Mrs. Smithers slowly moving thitherward, to be easily overtaken.

On all such occasions Mrs. Smithers reveled in blissful recollections of beauties of her son's character or in golden dreams of his future.

Miss French listened with a fluttering bosom. It was not surprising that her previously untouched heart throbbed deliciously when Mrs. Smithers told of the chivalry in her son John's nature. Did an act of bravery or heroism reach her ears, never was she at a loss to recall something in John's brief but brilliant career that put the heroism of others completely in the shade. John was a lover of all things noble, of all good and true and upright things, and he abhorred all mean, weak and contemptible natures as thoroughly as he hated deceit and sin.

If a child crossed their paths Mrs. Smithers saw in it, not her own pleasure and love in perfect childhood, but John's. John couldn't see a child on the street without stopping to speak to it. And generous! And kind! And brave! And handsome! Oh, thoughts of John brought tears to his mother's eyes!

So when Mrs. Smithers pressed Miss French's hand tenderly and whispered in a voice trembling with emotion that John was coming to see his dear mother the following week, and that Mrs. Smithers looked forward to the joy of letting Miss French share the delights of his presence, Miss French pressed Mrs. Smithers' hand in return. As she did so she felt a thrill of warmth and happiness cross her heart.

It was most exciting and romantic to think that she was soon to meet a man who was almost, if not quite, perfect.

The listened with something of the mother's own excited intensity for the carriage wheels on the day of John's arrival. The thought even crossed her mind that she ought to express her appreciation of Mrs. Smithers for giving her this great pleasure. She pictured herself as she might be in the future, as a blooming Mrs. Smithers, sheltered and protected by John, the envy of all her friends, the possessor of absolute happiness.

Why did she feel so hopeful? Well, hadn't Mrs. Smithers assured her that John was so attached to his mother that he wouldn't dream of falling in love without his mother's sanction?

And hadn't Mrs. Smithers looked the world over in vain for a wife worthy of John—looked until she was almost tempted to admit that there wasn't a girl in the world capable of filling that exalted position? But now—Then Mrs. Smithers had smiled meaningfully at Miss French and had patted her hand. Wasn't that reason enough for Miss French to anticipate a perfect future?

When the carriage finally arrived Miss French watched with an intensity that hurt, as each passenger stepped out of it. But when it was finally emptied she sighed a deep, deep sigh of regret.

He hadn't come! She reached for Mrs. Smithers' hand to comfort the poor mother—but it was gone, and so was Mrs. Smithers.

With outstretched arms Mrs. Smithers was racing down the walk toward a wizened little man with a fast increasing bald spot and a propensity for loud talk, who was bickering with the driver over his fare and demanding his rights in a high pitched voice that reminded Miss French of a Punch and Judy show. His mother reached John before his transaction was completed and she threw herself into his arms before he was aware of her presence.

"Oh, hello, ma!" he said, casually, but in a penetrating voice. "It was sort of hard to get away—my books didn't balance last night, and I thought I'd have to stay over another day—but I fixed them. Here, ma, you carry this satchel, will you? I'll carry the other one."

Miss French fled precipitately from their path that she might escape the promised introduction. She required time to clear away the debris of her ruined air castles.

In Society.

"How is it your society friend loves so to go to grand opera when she is so deaf?"

"Why, she sees all the latest styles in evening costumes and knows just what is the best each of her friends can afford."

"But she can't listen to the music."

"I know, but who does?"

He Needs a Rest.

"Doctor, do you think a trip to Europe would do me any good?"

"Yes. Let your wife take it."

FLASHES FROM THE HEADLIGHT

Bills of News Pertaining To The Soo and Northwestern Railroads

A Marinette despatch states that lumbermen are interested in the ultimate disposal of the Wisconsin & Michigan railroad. It is hoped that this line, which has great freight and passenger possibilities and is one of the most important logging railroads in the northern district, will be purchased by the Soo line. The Wisconsin & Michigan is at present controlled by John Marsch, the Chicago railroad contractor.

Albert St. Thomas, a Northwestern freight conductor on the Eland-Marshfield branch, was instantly killed while at work in the yards at Eland Junction on Monday of last week. He was standing on a side track when run down by a switch engine which he failed to see or hear approaching.

D. Rounseville, who was formerly in charge of the division engineer's office for the Ashland division of the Chicago & Northwestern road in this city, has been assigned to work in central Illinois. He is an expert engineer and his specialty is road building. Under his direction an excellent piece of road bed was recently completed near Clyman, Wis. Mrs. Rounseville and children expect to join him at Pekin, where he will have his headquarters, and may decide to spend the summer there. Antigo News Item.

A conference of railroad officials and manufacturers of steel rails is to be held at Chicago soon to consider the question of breaking rails, which have caused many disastrous wrecks and resulted in the loss of hundreds of lives and untold destruction of property. It is hoped to elect a committee to bring about changes in manufacture that will minimize breakage.

Jerry Bentley has taken a position as car clerk with the Soo line in this city. Jerry has worked for the company before and his friends are glad to see him back at the depot.

THINK THIS OVER

This Offer Should Gain the Confidence of The Most Skeptical. We pay for all the medicine used during the trial, if our remedy fails to completely relieve you of constipation. We take all the risk. You are not obligated to us in any way whatever, if you accept our offer. That's a mighty broad statement, but we mean every word of it. Could anything be more fair for you?

A most scientific, common-sense treatment is Rexall Orderlies, which are eaten like candy. Their active principle is a recent scientific discovery that is odorless, colorless, and tasteless; very pronounced, gentle, and pleasant in action, and particularly agreeable in every way. This ingredient does not cause diarrhoea, nausea, flatulence, griping, or other inconvenience. Rexall Orderlies are particularly good for children, aged and delicate persons.

If you suffer from chronic or habitual constipation, or the associate or dependent chronic ailments, we urge you to try Rexall Orderlies at our risk. Remember, you can get them in Rhinelander only at our store. 12 tablets, 10 cents; 36 tablets, 25 cents; 80 tablets, 50 cents. Sold only at our store—The Rexall Store, J. J. Reardon, Rhinelander, Wis.

NEW STORE MAY COME. R. C. Wittenburg of Chicago was in the city Saturday looking over the field with a view of establishing a ladies' ready to wear garment house here. While the gentleman refused to state whether or not he would locate here he seemed of the opinion that such a business would pay in Rhinelander. He will make known his decision at a later date.

TO VOTE ON STATE AID

Opportunity To Decide On Road Improvement This Year

The towns in Wisconsin at their annual meetings this spring will have an opportunity to vote whether they will build any roads or bridges in 1912 under the new State Aid Law.

The law provides that if a town wishes to vote a tax of four hundred dollars or over, the county shall provide an equal amount and the state an equal amount. This money is to be spent in permanently improving either by stoning, grading, or grading as is voted by the electors of the town, a portion of the county system of highways lying within that town, which portion is also selected by the electors of the town.

If bridge improvements are voted, the minimum tax is two hundred and fifty dollars, to be met by an equal amount from the county and one half as much from the state. Bridges built must be on the system of highways within the town voting the money.

The new law gives towns the opportunity of getting aid from villages and cities for building those main travelled highways which are the greatest burden upon the town. The cities and villages are also benefited by the greater ease of travel and the consequent increase in business and social activity.

About five hundred towns in the state voted for state aid at special or regular meetings last year and the money will be spent this year. It is expected that many more towns will vote this year, and that 1913 will see inaugurated an almost universal building of good roads under county supervision.

SPECIAL SESSION WORK

Legislation to prevent speculators gaining control of the rich agricultural lands in northern Wisconsin owned by the state, is on the program for the special session. State Treasurer Dahl drew the attention of Gov. McGovern to certain weaknesses in the present law relating to the sale of state lands which open the way for speculators to come into possession of these lands and crowd out the "actual settler." It is the purpose to have the legislature program for the special session well worked out before the legislature convenes.

This will be done to keep the session as short as possible. Much time will be devoted upon the drafting of a new bill relating to further state regulation of water powers. It is understood that after the legislators and legal advisors have drafted a bill that Gov. McGovern may call representatives of the water powers into conference with members of the legislature to go over the bill. It has not been decided just what form the measure will take.

SELLS MANY BANANAS

Sixty-five bunches of bananas, one quarter of a carload, were sold in less than a week at Plumb's store. The fruit was disposed of by the dozen and one can realize the task in handling sixty-five bunches of bananas in this manner. Mr. Plumb says this was the largest lot of bananas ever sold at one time in Rhinelander.

NAME NOT ON BALLOT

In reply to an inquiry of the county clerk of Fond du Lac county Secretary of State Frear stated that no provision has been made for the method of recording votes for Theodore Roosevelt as a presidential candidate on the official ballot but that voters so desiring, may write in the name of the candidate.

DE LAVAL CREAM SEPARATOR

More Than
1,375,000
in Use

The Machine By Which All Others Are Judged

For more than thirty years the De Laval cream separator has been acknowledged as the World's Standard.

You may hear it said of some separator that "It's as good as a De Laval;" or if some competing salesman wants to make his argument particularly strong, he'll say "It's better than a De Laval."

The concern with a cheaply and poorly constructed machine says "Just as good as a De Laval and costs less."

But everywhere the De Laval is recognized by experienced creamerymen and dairymen and even by makers of would-be competing machines as the World's Standard.

The cream separator is more frequently used than any other machine on the farm, and for that reason, if for no other, only the very best should be purchased, and that's the De Laval.

AROUND THE CIRCLE

Joe Ledisura has erected the second story to his new barn and is now putting the roof on. It will be a fine structure when completed.

We understand that the "Flats" is about to lose one of its most influential citizens.

G. D. Rousser and sons are getting their lumber home from the Hixon mill and piling it for drying purposes in readiness for the new buildings they expect to erect this season.

Fred Hack and family have moved from the lumber camps this week on their farm in the town of Crescent.

Carl Hanson and Freddie Weik are attending the agricultural school in the city.

John Vieaux came home from the woods near Flambeau this week where he has put in the greater part of the winter.

O. V. Beard is engaged in cutting spruce poles on the Cuenan place.

We understand that many of the farmers of the towns of Pelican, Crescent, Pine Lake and Newbold are intending to attend the agricultural meetings to be held in the city this week Thursday, Friday and Saturday, which will be a good move in the right direction as Oneida county is greatly in need of good farmers.

J. H. McNabb is getting out timber for a new barn this spring. Joe is always up to some such trick like that.

Harry Bowles has again been taken to the hospital.

Dr. Chas. D. Grose, health officer of the town of Crescent, is once more up for a position on the town board. The Dr. makes a splendid officer and should receive enough votes to put him on the board again.

Harrison and Andrew Wolf have moved upon their old homestead recently purchased of Joseph Holmes.

G. O. Kramer expects to go into the gardening business this season. If present indications are any criterion as the air in his vicinity is very fragrant with the perfume of the ancient fertilizer he has strewn over the ground.

Now that T. P. Hagan has got fairly squared around in his new location upon the Hamlin farm we may look for some good results this season in the way of "bumper" crops as T. P. is a "buster" from "Anniserville."

THREE LAKES

By Correspondent
The school entertainment which was to have been given before the Easter vacation has been necessarily postponed till after the holidays. Owing to the fact that so many cases of mumps have been contracted among the children, several changes were unavoidably made in the cast of the little farce which is to form about one-half of the program. Rehearsals have been badly broken into, occasioning the postponement. The Woodman Hall has been secured in which to hold the exercises. The managers of the hall have promised to repair the foundations of the building, and it will be probably safe for the accommodation of a large crowd.

The school will close for the spring vacation on Friday of this week. School will reconvene April 8.

Clark Kuney sold 100,000 feet of birch and bass veneer timber to F. Zang last week end. Mr. Zang is buying for the Wisconsin Chair Co. of Port Washington.

D. C. Dewey, the potato man of Antigo, arrived at Three Lakes Tuesday of this week. Mr. Dewey has under consideration plans for building a warehouse at this point. Nothing definite in regard to its construction has been arrived at as yet. Miss Maud Lowen is the latest victim of the mumps.

Mrs. Lowen was a school visitor Tuesday afternoon of this week.

ANOTHER LETTER FROM G. H. DAWES

He Answers State Forester Griffith's Article in Last Week's New North

It appears from Mr. Griffith's letter in the New North of March 21, that I am not only mistaken in many of my statements in my letter of Feb. 5, but am also guilty of misrepresentation.

I charged the forestry men with condemning nearly all of Oneida county as an agricultural country.

I certainly feel that I was justified in making that charge.

I will ask Mr. Griffith if he was or was not reported correctly in the Milwaukee Sentinel about two years ago, in which he said very much of Oneida county is unfit for farm purposes? I also wish to call Mr. Griffith's attention to a correspondence between him and me, about three years ago, in which he stated that there is not much of Oneida county good for anything but the summer resort business?

Another forestry man stated to me at my own home that there is little of Oneida county good for farming purposes. Mr. Griffith and this same gentleman talked with me at my home to the effect that few people in Oneida county were successful in making farming pay. They thought it due to sterility of soil while I contended it was due to a lack of knowledge of soil conditions or to careless methods of farming.

I do not want this discussion to degenerate to a personal affair so I will say that if I have been taken in this matter, I am willing to be corrected. Or if Mr. Griffith has "experienced a change of heart" in regard to this matter it is no more than many other people have experienced in the last three years and I am glad to see the changed attitude.

It is gratifying to note that the state does not intend to reforest the southern part of the county as that is practically agricultural soil. The fact

STEKETEE'S Pin Worm Destroyer

A true and efficient remedy especially adapted for destroying and removing Pin Worms, Seat Worms, and all other forms of Worms. Cleanses the stomach and purifies the blood. This powder is also recommended for the relief of Epilepsy of Fits, and for the relief from various forms of Convulsions and Nervous Affections. It also purifies the blood. It contains no Jalap or Calomel, nor any injurious ingredients, and is not injurious to the system. It tends to force the Pin and Seat Worms from the stomach and bowels, when no other medicine to my knowledge is known to touch the kind of worms mentioned herein. No family should be without it.

MOTHERS! READ!

It is not itching piles that kill you, or your child, it is the Pin Worm or SEAT WORM that causes you or your child to have rectal trouble. Soon after retiring for the night the pin worm appears. It bites and stings and causes scratching and itching. Mothers know what it means when your child cries out: "Mamma, something is biting me." And sure enough, upon examining her child she finds the naughty white pin worm harp pointed at the anus and embedded in the child's rectum. This worm causes nervousness to young and old people and the itching is not pills, but pin worms. The harmless remedy for this is STEKETEE'S PIN WORM DESTROYER.

Has Your Darling Child a Fever?

First of all give it Steketee's Worm Destroyer. HAS IT A FOUL BREATH? Give it Steketee's Worm Destroyer. It cleanses the stomach.

Has Your Child a Fever?

Give it Steketee's Worm Destroyer. IS YOUR CHILD RESTLESS AT NIGHT? It is worms that disturb your child. HAS IT FARTING FITS? Sure sign of worms.

The child is restless at night and starts frequently when asleep. Itching and scratching of the ANUS is a sure sign of pin worms. Use STEKETEE'S PIN WORM DESTROYER.

Price, 25c. By mail 30c. Ask druggists for Steketee's Pin Worm Destroyer.

Address GEO. G. STEKETEE.
129 Cherry St. Grand Rapids, Mich.

There is good and poor land in every township in Oneida county and I believe the amount of farm land has been greatly under estimated, but I think every reader, who is acquainted with 37-8, which Mr. Griffith cites as an agricultural town will think little of Mr. Griffith's judgment when they think of the stony land just to the northwest of Rhinelander and the extensive tract of Jack pine sand about the Newbold station. However, there is good land in that town and I believe if the poorest land there is farmed with intelligence it would yield paying crops. I have before me a letter from Mr. Griffith stating that the soil expert of the agricultural college made a soil survey of 35-7, 35-8 and a few townships further north and reported 78 per cent of those townships as lands upon which the state should not encourage settlement. With all due difference to the

soil expert's superior knowledge of agricultural lands I must take issue with him and believe his examination was too hastily made. I think any man who is acquainted with 35-7 will bear evidence with me that there is from 40 to 50 per cent of this township fair to excellent farm land.

Last September I had with me on my farm, one of the largest and wealthiest farm operators in Wisconsin. He owns a 1000 acre farm near Beloit and he expressed himself as not only pleased but surprised at the productiveness of our soil. In writing up his observation for one of our state papers, he says: "Here is a productive soil. Corn growing twelve feet high; potatoes yielding from 200 to 300 bushels per acre; clover and blue grass growing as nowhere else." Such is the conclusion of a practical man.

In regard to the sale of state land of an agricultural character, I will say in all fairness to Mr. Griffith that he did release three descriptions after he obtained an option on the same that these might be sold to an actual settler. He also states that he will be glad to receive applications for eight more descriptions in Secs. 9 and 10, land lying between Carr and Horsehead lakes. I trust this will as far as it goes set Mr. Griffith right before the public.

But Mr. Griffith certainly cannot deny that he positively refuses to sell some elegant farm land in 5 and 9, between Carr and Tomhawk lakes. He cannot deny that I wrote to him, in behalf of a prospective settler, for some land in 23 and he flatly refused to sell it. Here too is a tract of nearly four sections of farm land where about twenty settlers could be placed in a solid body. There is a demand for Oneida county land. There is a growing demand too, but I want to ask Mr. Griffith how he expects to sell any of these lands if he does not let it be known that the state has such lands for sale? For Mr. Griffith says he will sell these lands and not advertise the fact is about as much of a business proposition as it would be for a man to start a store and then close his doors and wait for Tom, Dick or Harry to send him a customer. That manner of disposing of agricultural lands is practically just the same as not selling them at all.

If the legislature is at fault and

Gary & Danielson

has given Mr. Griffith no authority to advertise this land then there is no impropriety in calling attention to this matter and asking the legislature to give him such authority, and I fail to see any reason why Mr. Griffith need take it as a personal offense.

I do not want to go on record as opposing conservation of any of our national resources. I want to see the strictly non-agricultural lands reforested, and if Mr. Griffith will put forth as much effort and use as much printers' ink to sell good land to settlers so we can have some of the advantages of settled communities as he does to let the pleasure seeking people know the state has desirable lots on the lakes to lease for resort purposes, he will have the hearty co-operation of the people of Oneida county.

Yours truly,
GEO. H. DAWES.

PLAINTIFF GETS \$4,500 DAMAGES

Jury Finds Verdict For Edith Pullen In Case Against Tanning Co.

In the suit of Edith N. Pullen, administrator of the estate of Edwin Pullen, deceased, against the Union Tanning company of Rib Lake, tried at the adjourned session of the spring term of circuit court this week, the jury returned a verdict in favor of the plaintiff with damages at \$4,500. The trial consumed nearly two days. Edwin Pullen was killed while in the employ of the Union Tanning company and the jury found that his death was due to negligence on the part of the company. This was the only jury trial at the present session of court.

A decree of divorce was granted Edith M. McClelland from Benj. G. McClelland.

NO RIFLE MATCHES

Wisconsin Marksmen Will Not Compete This Year

Officers of Company L have been informed that no national rifle matches will be held at the Sparta military ranges or elsewhere this year, according to the announcement received from the war department by Col. R. B. McCoy, of Sparta, inspector of small arms practice of the Wisconsin national guard.

Matches generally have been held at Camp Perry, Ohio, and Beagirt, N. J., but this year were to be at Sparta.

The Mexican situation is understood to be the reason for the abandonment this year of the national rifle match, which for years has been contested by teams representing the several branches of the regular service and the national guard of all the states.

Among the marksmen who have participated for several years past in the national rifle matches is Henry Russell of Company L. Mr. Russell is one of the crack shots of the Wisconsin national guard and has received many prizes and medals for his skill.

INCOME TAX ANNOUNCEMENT

The Income Tax Assessment blanks have been distributed for this section of the district, to be returned to the Assessor of Incomes, properly filled out and sworn to, on or before April 1st. A person who is subject to the Income Tax is not relieved from the obligation to make return by the fact that he has not been formerly required to do so by the Assessor. Read the letter of instructions and the blank carefully before attempting to make the report. Be sure that every question is answered. Write the word "none" where there is no amount or information to be given.

SHOULD EXAMINE SCHOOL CHILDREN

Inspection By Nurse Means a Saving in Future Doctor Bills

School inspection by a nurse is not a doctor's professional examination. It is a move towards preventive medicine rather than a "play into any doctor's hands." The nurse simply examines a child "above the clothes line," that is, eyes, ears, nose, throat, finger nails and teeth where 90 per cent of the trouble is found among school children, unless the child's parents or teacher ask for a further examination. The parents of any child, who is defective, are told what is apparently wrong and advised to consult their family physician. A small doctor's bill now may save a big one later. We all know that any physical defect weakens a person's mentality. Why not correct a fault early and make the coming generation one of higher mental calibre? In case of contagious diseases, diphtheria, scarlet fever, measles, mumps, whooping cough and etc., it is and other skin diseases the parents and health department are notified, and the State Board of Health rules carried out.

Many people have argued "let the parents take care of their own children." That is all very well, some do and some do not. You do, but your child sits next some child with whooping cough, a diphtheritic throat, the itch, lice or even a more serious disease and contracts it. All your care can't prevent it, but school inspection can. And school inspection tries to put every child on a level so far as physical health is concerned. In places where it has been tried delinquent scholarship is much less frequent and children who have been backward owing to some slight physical defect have advanced rapidly as soon as that defect has been attended to. A parent is free to act on the nurse's suggestions or not, the case comes under the State Board of Health rules, then the rules are enforced. Your neighbor's child is your responsibility as much as is your own child, in that your child associates with your neighbor's child and is susceptible to any environmental condition with which he comes in contact. Is it not our responsibility to better conditions when the opportunity is offered? School inspection is no experiment. It has been tried out in many cities and when once it has been inaugurated it has never been stopped. But few cities the size of Rhinelander have had the privilege of even trying it. Are we going to let this opportunity for social betterment slip?

La Follette's WEEKLY MAGAZINE

The Great Progressive Weekly

There are many reasons why you should read what it says 52 times each year. It is free to tell the truth it will oppose the encroachment of special privileges upon the people's rights. It will call the roll on public men and measures and inform you how your congressmen work and vote. It will criticize the executive branch of government from the highest to the lowest, if in its judgment the people's interests are not protected. It will spread the gospel of ideal home life through the Women's Department. It will be conservative when good things are to be conserved, and radical when bad things are to be exposed.
